Containers and lids are made of recyclable polypropylene
Certifications *FDA, Cetea, Anvisa, Adolfo Lutz*

Printing

In addition to the packages produced by IraPlast, we also provide printing service on packaging through the process of screen printing Silk-Screen, more information can be found at [www.iraplast.com / impressao.html](http://www.iraplast.com/impressao.html)

Opening and Closing

Opening - Pull the seal so that it breaks down, getting access to the place for opening the lid.

Closing - Align the lid on top of the container; make pressure around the container until the lid fits completely

Recommendations

Avoid excessive stockpiling (above 25 kg) to avoid breakage and warpage, try to keep the containers fitted inside the other. We recommend using at temperatures between 0 °C and 82 °C, for special cases, please inform the IraPlast to indicate the correct packaging and procedures.
